

Turn a failed reference into a guaranteed let

A practical guide for referencing teams: how to refer, track and earn through the Guarantee Referral Portal.

What this is

A failed reference does not have to be a dead end. When a tenant fails referencing, you can refer them to opndoor's professional guarantor service in a couple of minutes.

If the tenant takes it up, **opndoor provides a guarantee for the tenancy through a Deed of Guarantee**. The landlord is covered for up to 12 months' rent and legal costs, the let goes ahead instead of falling through, and your business earns commission on every referral that converts. It is the natural next step on a reference that would otherwise be lost.

This portal is where you send those referrals and track each one through to completion. It is provided and run by opndoor, and used by your team day to day.

At a glance

- **You refer** a failed-referencing tenant in the portal.
- **The tenant pays** a fee of one month's rent and opndoor provides the guarantee through a Deed of Guarantee.
- **opndoor issues** the Deed of Guarantee and you track it through to completion.
- **Your business earns** commission on every referral that converts.

How a referral works, end to end

Every referral moves through three statuses. The portal shows exactly where each one has reached, so you always know what has landed and what is still in progress.

1 The tenant fails referencing

Rather than declining the application, you offer the guarantor route.

2 You send a referral in the portal

A few details about the tenant, property and tenancy, and the referral is on its way.

Status: ● Sent

3 The tenant pays the fee

They receive a secure link and pay one month's rent as the guarantor fee. Status: ● Paid

4 opndoor issues the Deed of Guarantee

opndoor is the sole signatory to the deed. The guarantee reference, issue date and expiry are assigned automatically. Status: ● Deed Issued

The status timeline. Every application shows where it has reached, from Sent through Paid to Deed Issued, with the date of each step.

Signing in

Signing in takes two steps, so your referrals and tenant details stay protected.

1 Enter your work email and password

Use the work email your opndoor account manager registered for you.

2 Enter your 6-digit verification code

A one-time code is sent to your authenticator. Type it in to finish signing in.

Step 2. The 6-digit two-factor code.

Sending a referral

Open **New application** and work down the form. It is split into four short sections.

- **Tenant.** Title, first and last name, date of birth, email and phone.
- **Property.** The address being let: address lines, town, county and postcode.
- **Tenancy.** The monthly rent and the tenancy start date.
- **Agent and branch.** The agent this referral belongs to, then the branch beneath it.

The screenshot shows the 'opndoor' Partner Portal interface. The left sidebar contains navigation links: 'Referral Portal' (under GUARANTEE), 'Dashboard' and 'Applications' (under TRACKING), and 'Agencies & branches' (under ORGANISATION). The user profile 'Priya Nair' is visible at the bottom of the sidebar. The main content area is titled 'New application' and includes a search bar and user roles 'opndoor admin', 'Management', and 'Referrer'. The form itself is divided into sections: '1 Tenant' (with subtext 'The tenant being referred') and '2 Property' (with subtext 'The address being'). The 'Tenant' section contains fields for 'TITLE' (a dropdown menu with 'Ms' selected), 'FIRST NAME' (text input with 'Amelia'), 'LAST NAME' (text input with 'Hartley'), 'DATE OF BIRTH' (text input with placeholder 'dd/mm/yyyy'), 'EMAIL' (text input with 'amelia@example.com'), and 'PHONE' (text input with '+44 7700 900000'). At the top right of the form, there are 'Cancel' and 'Send application' buttons.

The new application form. Four sections: Tenant, Property, Tenancy, and Agent and branch.

The agent field is **select-or-add**. Start typing and it surfaces matching agents already on file. If the one you need is not listed, you can create it on the fly without leaving the form, then pick the branch beneath it the same way.

Fox agency not in the list

Guarantee reference, issue date and expiry are assigned automatically.

Cancel

Send application →

Tenant

Property

Tenancy

Agent & branch

Select or add. Choose an existing agent, or create a new one on the fly when there is no match.

Assigned for you

You do not enter the **guarantee reference, issue date or expiry**. opndoor assigns these automatically once the guarantee is issued, and they appear on the application's detail view. The expiry is set to twelve months from the tenancy start date.

Tracking referrals

The **Applications** list shows every referral you have sent. The tabs across the top filter by status, so you can see at a glance what is still **Sent**, what has reached **Paid**, and what is **Deed Issued**. Search by tenant, property or reference, and filter by agency and branch.

The applications list. Status tabs, search and agency and branch filters across all your referrals.

Open any application to see the full record: the status timeline, the tenant, property and agent details, and the guarantee summary with its reference, issue date and expiry. Once the deed is issued it is stored against the record, ready to **download** whenever you need it.

The application detail view. Timeline, tenant and property details, guarantee summary and the stored deed with a download button.

The dashboard and what you earn

The dashboard is your home screen. It shows the live funnel from **Sent** to **Paid** to **Deed Issued**, with the conversion rates between each stage. The headline metric is **Sent to Paid**: how many of the referrals you send go on to convert.

10%

Commission earned on one month's rent, per converted referral

1 month

The guarantor fee the tenant pays, equal to one month's rent

12 months

Rent and legal costs the landlord is covered for

If you are a Referrer

Your dashboard shows **your own referrals only**. You see your live funnel, **Your fees collected**, and **Your referral performance**, so you can see exactly what you have sent and what has converted.

The Referrer dashboard. Your own referrals, your live funnel, and your fees collected.

If you are a team lead (Management)

The Management dashboard shows the **full estate across every branch**, with commission visible, so team leads can see how the whole team is performing and what it is earning.

The Management dashboard. Every branch in one view, with commission earned and volume by branch and referrer.

Roles, briefly

Your team has two roles. Your role decides what you see.

Referrer

Refer and track your own

Sees and tracks only their own referrals.
Can send referrals and add agencies and branches on the fly. Does not see other people's commission.

Management

Oversee the whole team

Sees the full estate across every branch, with commission visible. For team leads who manage performance across the team.

Administration

The portal is administered behind the scenes by your opndoor account manager. They are who you contact for access, new users or any changes.

Help and resources

The portal has a built-in **Help and resources** area. It holds getting-started guides, useful resources and answers to common questions. Use the search at the top to jump straight to what you need.

Help and resources. Guides, resources and FAQs, all searchable.

If you cannot find an answer there, contact your opndoor account manager and the partnerships team will help.
